

Countertop Ice Cream Freezer Piccolo

Product Overview

The PICCOLO is a slim, space-saving countertop gelato freezer designed for professional foodservice. With its transparent lid for full product visibility, eco-friendly R290a refrigerant, and a lightweight ABS structure, the PICCOLO delivers consistent deep-freeze performance in a compact footprint — perfect where space is at a premium.

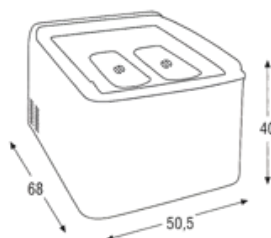

Key Features

Advanced Cooling

Temperature range from -15° to -18°C ensures optimal preservation for gelato, ice cream, and frozen desserts.

Energy Efficient

Low power consumption at 0.4 kW with R290 for reliable, eco-conscious operation.
