

Countertop Ice Cream Freezer Baby

Product Overview

The Tecnocrio Baby is a compact, high-performance ice cream display case engineered for professional use. Featuring advanced refrigeration technology and elegant design, it maintains optimal temperatures for gelato preservation while maximizing product visibility and customer appeal.

Ideal for limited spaces without compromising on quality or performance.

Key Features

Compact Design

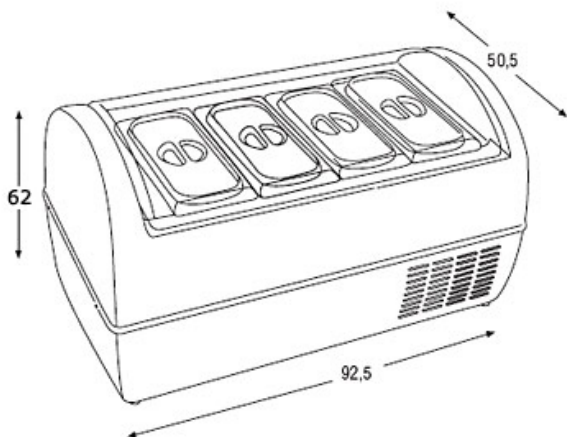

Space-saving footprint of 925 x 505 mm makes it perfect for small retail environments, cafes, and mobile operations.

Advanced Cooling

Temperature range from 0° to -18°C ensures optimal preservation for gelato, ice cream, and frozen desserts.

Energy Efficient

Low power consumption at 0.50 kW with R290 for reliable, eco-conscious operation.

Technical Specifications

Dimensions

Width: 925 mm

Depth: 505 mm

Height: 620 mm

Weight: 32 kg

Temperature & Power

Temperature Range: 0° to -18°C

Power Supply: 240V

Power Consumption: 0.50 kW

Refrigerant: R290
